**SMART HOME Motion sensor, PIR, WiFi 2.4 GHz white/black**

With the DELTACO SMART HOME app, you can access and adjust all settings for the motion sensor. The installation is fast and smooth, all you need is a working wireless network, ie. no special hubs or gateways. In the DELTACO SMART HOME app, you can control individual units individually or divide them into different rooms to easily manage a group. In addition to turning the motion sensor on or off, you can schedule specific times when it should be on or off. In the DELTACO SMART HOME app, it is also possible to create automatic measures such as that the lighting is switched on or that the siren will alarm if movement is detected. The DELTACO SMART HOME app is of course available to download for free for both Android and iOS.
